

1" THERMOPLASTIC JETTER HOSE - ORANGE - 2,500 PSI

Choose Your Length Hose Assembly 1" M BSP x 1" M BSP

Features

- 1/2" BAR Thermoplastic Polyurethane Jetter Hose Assembly
- BAR's range of Jetter hoses are made of high-quality thermoplastic polyester on the inner tube, chemically bonded high-tenacity polyester textile braid for reinforcement, and a heavy-duty thermoplastic polyurethane for the cover.
- This tough outer cover is tough on abrasion, and is resistant against oil, weather, and ozone! BAR's Jetter Hose assemblies are the ideal pick for professionals!
- Thermoplastic Poly Inner Tube
- Thermoplastic Poly High Abrasion Cover
- Reinforced with Chemically Bonded Braided Polyester
- Operational in a Range of Temperature
- Optimum Flexibility & Light Weight
- Note: Suitable for use on all types of medium and high pressure jetting applications.
- **Not for use with a high pressure gun on pressure washers*

Specifications

- **Working Pressure:** 2,500 PSI
 - **Burst Pressure:** 6,250 PSI (2.5:1)
 - **Length:** Variable
 - **End One:** 1" BSP Male
 - **End Two:** 1" BSP Male
 - **Internal Diameter:** 1"
 - **Outer Diameter:** 1.445"
 - **Minimum Bend Radius:** 6"
 - **Temperature Range:** -40°C to +70°C
