

SKU: PIN CEC230

**Cool Air Flow 23000 m<sup>3</sup>/h**  
**Tank Size 120 L**  
**Cooling Area 150 m<sup>2</sup>**

---

## Features

### BE Commercial Evaporative Cooler 23000 m<sup>3</sup>/h

- The BE commercial evaporative air cooler utilises the natural process of using evaporation to cool the air.
- Evaporative cooling is a cost-effective way to keep you cool in the summer.
- The 165 CEC230 is ideal for open areas and is capable of cooling areas of up to 150 m<sup>2</sup> but is also suitable for spot cooling.
- These units are perfect for cooling warehouses, workshops, offices & hospitality venues.
