

SKU: 225 7376

Max Flow 75 gpm / 284 lpm

Min Flow 10 gpm / 38 lpm

Max Pressure 2000 psi

This Pressure Regulator is designed for single or multiple pump, weep or multi-nozzle systems. This is a flow-thru design easily plumbed into the discharge line or directly onto the discharge head. This regulator maintains set system pressure even when only one of several guns or nozzles is performing or a solenoid valve is open, by-passing the unused flow. The pressure is held in the line during full by-pass and instantly has full pressure, when all guns and nozzle resume operation. 5-10% by-pass is necessary for optimum performance.

Technical Specifications:

• Max Flow	75 gpm / 284 lpm
• Min Flow	10 gpm / 38 lpm
• Max Pressure	2000 psi
• Inlet Port Size	1 1/4" NPT(F)
• Discharge Port Size	1 1/4" NPT(F)
• Accessory Type	Pressure Regulators
• Material	316 Stainless Steel
• By-Pass Port	1 1/2" NPT(F)
