

SKU: 220 CLW70/130

Pressure - 1885 psi
Flow - 70 L/min
Speed - 1450 RPM

Features

- Symmetric crankcase featuring top and bottom fixing for easy right to left shaft conversion
- Head: brass with chemical nickel plating
- Camshaft: steel
- Splash lubrication
- Shaft support bearings oversized for long duration
- Connecting rods: special anti-friction light alloy
- Guiding piston: stainless steel
- Solid ceramic plungers
- Suction/delivery valves in stainless steel and acetal resin
- Seals: high dependability
- Versions in direct drive mount with shaft positionable on the right or left or through shaft.

Specifications

- **HPP Model** - CLW 70/130
- **HPP Code** - 6915 0015
- **Speed** - 1450 RPM
- **Flow** - 70 L/min
- **Pressure** - 1885 psi
- **Power** - 24.2 hp
- **Max Inlet Pressure** - 43.5 psi
- **Oil Capacity** - 2.51 L 15W 40
- **Weight** - 33 kg

Options

1. Double shaft version available on request
 2. Flushing system available on request
 3. PULSE system on request (only with brass head)
