## HAWK PUMP 30L/MIN 7250PSI

The pumps in the MPX series can operate at a maximum pressure of 500 bar and a water temperature of up to 65° (150 °F). This model is fitted with an ECOBRASS head, which makes the pump sturdier than the MPX 500 base version. This makes it suitable for use on industrial washing systems, in a which more intense pace of work is required.

“Ecobrass” pump head: environment-friendly brass alloy with very high mechanical properties equivalent to Stainless Steel 316.
