

SKU: 166 GX690 RHTXF7

Features

- Honda's V-Twin range of engines are the cream of the crop, powering Pressure Washers, Water Pumps and Commercial Lawn & Garden Equipment throughout Australia.
- The Stationary Engine GX690 V-Twin can also be found in Tillers / Cultivators and other Agricultural Equipment, Generators as well as many different applications.
- And if it's something more hardcore that you need power for, the GX690 is also used in the Forestry and Construction/Industrial industries.
- The fuel economy of the Stationary Engine GX690 V-Twin is similar to fuel injection, with the simplicity of carburetion ensuring that running this unit is easy on both your pocket and the environment.
- The Stationary Engine GX690's high capacity pump facilitates consistent oil delivery, and a handy Oil Alert will keep you posted if you look like running dry.
- There's a dual cylindrical air filter, and a large diameter air intake on board for superior cooling.
- All Honda V-Twin Engines are covered by a Honda 3 Year Domestic & Commercial Warranty.
- All just extra reasons for you to Love Your Honda GX690 V-Twin.
