JetAxe Nozzle 3/8" BSP F Thread

Jetaxe Nozzle 3/8" BSP F Thread - Hardened Stainless Steel

This nozzle can be connected via a HT12M quick connect tail or screwed directly onto a 3/8" M thread on your jet hose.

It is made in Australia from Hardened Stainless Steel for long life.

These nozzles are extremely effective for tearing through tree roots and the first point of penetration.

Flow rates from 28LPM to 40LPM or 7GPM to 10 GPM.

Also available in 1/4".

(This price is for the nozzle only.)
