

TURBO NOZZLE – UR16 – BUDGET ITALIAN

2,500 PSI Pressure
1/4" BSP F Inlet
Temp to 100°C

Features

- Concentrated stream in a conical pattern
- This nozzle provides very fast and powerful cleaning on hard surfaces such as driveways and sidewalks.
- Due to the power of the spray nozzle, it is recommended to start further away from the surface and move closer. Not recommended for soft materials such as wood.
- When using, always point the spray gun downwards. This sets the ceramic spray nozzle properly forward and prevents possible internal damage.

Specifications
